

Consular Report of Birth Abroad of a Citizen of the United States of America (CRBA) U.S. Embassy Guatemala City

CRBA will be Processed by Appointment Only

Make sure that you meet the requirements and have **all** the documentation ready the day of the appointment.

The birth in Guatemala of a child with a claim to American citizenship should be reported **at the earliest possible** date to the Consular Section of the American Embassy in Guatemala City. It is important that parents obtain a Consular Report of Birth Abroad of a Citizen of the United States of America (CRBA) since according to U.S. law, a CRBA is proof of U.S. citizenship and may be used to obtain a U.S. passport and register for school, among other purposes.

We encourage the child's parents to apply for a U.S. passport for the child at the same time that they apply for a CRBA. Parents may also choose to apply only for a U.S. passport for the child. Like a CRBA, a full validity, unexpired U.S. passport is proof of U.S. citizenship. If you are interested in getting a passport for your child go to [First-time passport issuance for minors](#)

Failure to promptly document a child who meets the statutory requirements for acquiring U.S. citizenship at birth may cause problems for the parents and the child when attempting to establish the child's U.S. citizenship and eligibility for the rights and benefits of U.S. citizenship, including entry into the United States. By law, U.S. citizens, including dual nationals, must use a U.S. passport to enter and leave the United States.

Requirements

A Consular Report of Birth Abroad of a U.S. citizen is only issued to a child who acquired U.S. **citizenship at birth** and who is **under the age of 18** at the time of the application.

A person born abroad who acquired U.S. citizenship at birth but who is over the age of 18 (and so not eligible for a CRBA) may wish to apply for a Certificate of Citizenship to document acquisition pursuant to 8 U.S.C. 1452. Visit [USCIS.gov](http://uscis.gov) for further information.
